

Notice for School Registration 2022

The School registration will take place on:

thursday, 10th March 2022

The schools set their own times.

As far as the infection situation permits and a school enrolment in presence will be possible, the schools will inform the parents of the relevant personal date for the school registration via the kindergartens or directly with. If school enrolment in person is not possible for infection reasons, the exact procedure regarding the school registration via the kindergartens or directly with. If school enrolment in person is not possible for infection reasons, the exact procedure regarding enrolment and submitting the documents must be requested from the responsible primary school. The obligation to participate in a procedure to determine school capability according to § 2 para. 3 GrSO does not apply.

In this case, the obligation to participate in a procedure to determine school readiness in accordance with § 2 Para. 3 GrSO does not apply in principle.

The registration is compulsory

The legal guardians are requested to submit their school-age children on this day for school visits. School children are all those who have completed the age of 6 by 30th September, i.e., who were born on the **30th of September 2016** at the latest.

The children must be registered at the Primary/elementary school in their school district/border where they are resident. This also applies if, for compelling personal reasons, a visit to another primary school (with a so-called "guest school") or a restitution is to be requested from the primary school. Guest scholarship applications are to be submitted on the day of the school registration. Guest scholarships submitted to the school after the 1st of April 2022 can only be considered if the pupil is a newcomer.

Children who were held back in the previous year must be re-registered by presenting the notice of re-registration.

We also refer to the school regulations for primary schools in Bavaria, § 2 paragraph 3 sentence 5 and following. Here it states, among various other things: "The school may require participation in a procedure to determine school capability." (Sentence 5) Should the registration on 10 March not be able to take place in attendance, but the infection situation later before the beginning of the school year 2022/2023 allows for the implementation of the procedures to determine school readiness, the school decides on a possible implementation and makes the organisational and content-related decisions on its own responsibility.

Parents or guardians may be fined if they neglect to register a child of compulsory school age, either negligently or intentionally, without a justified reason.

Also, legal guardians whose children were born in the so-called "school enrolment corridor" between 01.07.2016 and 30.09.2016 and who do not want to enrol their child in school are obliged to attend the school enrolment with their child. The school advises the parents and gives a recommendation. The parents then decide if their child will start school in the coming school year or not until the following school year. If the parents do not submit a declaration by **11 April**, their child will be required to attend school in the coming school year.

School admission on request

Children born between 01.10.2016 and 31.12.2016 may be enrolled in school if requested by the parents. In case of doubt the school will check the child's ability.

Frei verwendbar

At the request of the guardian, children can also be enrolled in exceptional cases, if they were born after 01.01.2017. Here a psychological examination is compulsory.

School medical examinations in advance

- The school admission examination 2022/2023 by the public health department remains suspended for the time being due to the Corona pandemic.
- The Health Department asks that the U9 child check-up (between the 60th and 64th birth month) be carried out by the child paediatrician or family doctor. The child's vaccination status should also be recorded at this appointment, for which the vaccination book must be presented.

The day of school registration

The legal guardians must if the infection situation is permitted, come with their children to the school in their district. If you are unable to come, please assign a representative to take the child to the school registration. Children who are in a home can be registered by the School director

Please bring the following.

- **birth certificate**
- **with foreign children, the passport is required.**
- **vaccination record and the health check booklet**
- **possibly documents like the residence regulation and/or custody rights.**

School registration at a Special Care School.

Children who are not able to attend or participate in a standard primary school due to the need of special care and attention or because of disability, can be registered in a public or private Special Care School. The school administrations of the Special Care School in Erlangen will counsel you and – if necessary – issue the necessary certificate to be able to register.
